Security Service Federal Credit Union Presents Donation to ChildSafe to Help Fund Healing Programs

San Antonio, Texas: Security Service Federal Credit Union's service center manager, Kristin Popowich (right), presented Kim Abernethy, president & CEO for ChildSafe, with a check for more than \$8,400 to fund programs that help heal children and adolescents that have been victims of sexual abuse. Security Service's south district employees held a month-long fundraiser at the credit union's area service centers to raise the money for the organization. "These are much needed funds," said Abernethy. "Especially with the hard economy and funding cuts - this donation was such a great surprise." Security Service has raised funds for ChildSafe every year since 2007.
